## Literacy Tasks

1. Highlight or underline individual focus words.  
Use colour coding and record each word into their sounds.  
i.e. guitar                      **gu i t ar**
2. Sound words to yourself and tap your finger for each new sound. Sound to a partner when finished.
3. Write detective clues to help identify six of your individual words. Swap clues with a partner and solve. Keep detective clues each week so that you can revise your word meanings. Always put a star (\*) next to the original word.
